

COLLECTION REPORT GARDEUR, WOMENSWEAR S/S 2022

Fashion - joy in life.

gardeur's new 2022 Spring/Summer collection stands for joy in life. This is reflected by a diverse colour palette and innovative materials. Here accents from the 70s, 80s and 90s are synonymous with positivity and joie de vivre complementing the collection with contemporary twists.

Natural tones with a harmonious and quiet mood paired with a lively variety of colours give rise to not only joy in fashion but also in life. The combination of radiant grenadine (lime, neon orange and pink) as well as of bright yellow and green shades or bubblegum colours (Cradle Pink, Lilac Chiffon, Aqua Splash and Mango) serves to complement the rather earthy tones (Vintage Khaki, Olive, Irish Cream and Marshmallow), thereby building novel suspense and whetting the appetite for summer.

gardeur New Denim

The **Denim x Love series** is extended to include bleached washings and an "optic white". Pull-on Capri pants (style Cindy) and shorts (style Vicky) add to the summery theme.

The **JoggDenim** style now also comes in bleached. The next summer season will also see jogskirts in a soft, casual denim jersey as highlights joining the best-selling jogpant styles.

Authentic Denim continues featuring as a brilliant high-fashion choice and will be offered in both bleached and white from Spring/Summer 2022. The successful slim-fit and straight-fit styles are joined by a new kick-flared one with a 68 cm, frayed hemline and by a boot-cut style with 82 cm hemline. The silhouette shift is completed by relaxed, loose-fit styles, hip boyzees with elaborate washes and distressed jeans. With this range gardeur again gives proof of its denim expertise.

Tencel denim impresses us as a midsummer denim used for cropped worker styles, Bermudas feature alongside high-fashion egg-shape pants with top pleats and sophisticated seams. Cool materials with a flowing drape and with a both dull and glossy finish set the scene for summer.

Collection

For summer 2022 gardeur rings in an exciting silhouette shift:

The new egg shape goes hand in hand with a loose and relaxed fit focusing on comfort. This novel silhouette is characterised by a conical leg shape and narrow

hem width, refined by elaborate seams. gardeur interprets these egg-shaped pants in cool-dye cotton as well as in Tencel and Tencel denim in conjunction with innovative washes. Striking, summery colours build additional suspense and invite wearers to remember the early days.

With their loose and informal fit peg-top trousers are just as synonymous with well-being. They score points with their characteristic, conical legs and top pleats. Also associated with a summery casual look are informal worker and cargo pants. Workwear-style pants are rather relaxed and loose. They contrast with those cargo pants with narrow legs and patch pockets. Complementing these are pull-on pants in summery cotton Cupro that boast ultimate casual hipness. The "repository" of new silhouettes is rounded off by the kick-flared pants, which come in a cropped slim fit and a wide choice of fabrics: jersey, scuba and denim as well as coloured denim. Naturally supple materials with a matt lustre such as cotton Cupro, Tencel linen and Tencel denim are especially suitable for these new relaxed silhouettes.

As before, a relaxed fit in the form of joggpants can be found in the gardeur collection and will be revisited by means of functional two-way stretch materials such as techno and jersey fabrics. Chinos with different hem widths in cotton satin as well as a wide variety of cotton prints re-interpret the city style.

Loose, airy trousers are an absolute must for summer. Which is why wide legs feature in both long and cropped styles in flowing viscose and recycled polyester fabrics with newly interpreted, multi-coloured Paisley and patchwork prints.

Slim pull-on fits and 5-pockets continue to play a prominent role in gardeur's summer collection and are placed in the limelight by soft scuba and jersey fabrics in tone-on-tone shades or attention-grabbing and multi-layered floral all-over prints. The majority of these slim pants are cropped in summer style and some feature slit hems.

The slim fits are also given a special twist by the revival of cropped kicked flareds, offered in both soft materials and jersey, scuba and coloured denim.

Summery, lightweight coloured denims in a Batik look reminiscent of former Hippie aesthetics as well as new cool-dye washes symbolise hip sportiness and are an expression of joie de vivre.

Bermudas and shorts made of Cupro, Tencel, Tencel linen and various cotton fabrics round off the summery theme. Workwear and cargo-type Bermudas with a rather looser fit come across as charmingly elegant and relaxed.

Skirts

Mini-skirts are offered as pencil styles, wrap-around or pull-on skirts. They come in a multitude of materials such as jersey and jacquards as well as high-tech fabrics with zipper details. They captivate us with their simplicity and easy-to-wear properties.

Thanks to their new, high-fashion length **midi-skirts** are trending and must-haves for the new summer season. They are styled in various silhouettes: in a slight A-line and jog styles as well as wrap-around skirts or workwear types refined by tucks and top-stitched pleats. Materials here range from polyester and viscose blends to jacquards not forgetting fine gabardine and cotton voile. The theme comes full circle with patchwork prints.

Pleated skirts come in flowing viscose and polyester fabrics with novel patchwork patterns and multi-coloured Paisleys in combination with decorative rubber waistbands. They exude a romantic, elegant summer freshness.

Lace skirts are given a new, modern slant as pleated skirts. These contrast with casual wrap-around skirts projecting a sporty look with their chic buttons.

Maxi-skirts feature a summery, modern length that combines elegance with hipness. One of the must-have items this summer season will be asymmetrical tiered skirts in a slim A-line with side slit pockets.

Alongside this are tiered skirts with intense all-over prints that exude special elegance, project a lightweight appearance and have a Flower Power feel of freedom to them.
